## Y2024 Chairman's message

### Dear Shareholders, investors and stakeholders

In 2024, the United States, which is the driving force of the global economy, will continue to see an expansion trend in the rise in nominal wages that exceeds price increases, as well as in private consumption through the withdrawal of savings due to the upward trend in the labor force and spending power following an increase immigration influx. Capital expenditures have also been on an increasing trend, albeit moderately, as the effects of the Semiconductor Act continue. Against the backdrop of such strong domestic demand, the U.S. economy continues to expand.

In the Euro area and the United Kingdom, although consumers' purchasing power was weak, the economy was generally resilient, mainly reflecting the rise in nominal wages exceeding inflation.

On the other hand, in China, although there were signs of a pick-up due to an increase in automobile sales supported by government subsidies, investment in the manufacturing industry, and an increase in infrastructure investment, domestic demand was structurally weak due to the slump in the real estate market, and the economy was at a standstill.

Under such global economic conditions, our main business of Printers has suffered lower sales compared to the previous fiscal year due to the decline in demand for printers, affected by sharing use of printers in the workplace after the complete subsidence of the COVID-19 virus, promotion of paperless work through digitalization of companies and consumers such as by AI, and the soaring prices of printing paper. In the automobile-related business, the Keyless business, a high-priced motorcycle model performed well, which supported sales, but the impact of the recent slowdown in the automotive industry was significant, resulting in a decline in sales overall.

In terms of profit, operating income, which represents the business's earning power, was commensurate, but the U.S. Federal Open Market Committee (FOMC) hinted in June at a policy rate cut from September onwards, and the market, which was concerned about the expansion of the interest rate cut range from mid-August, reacted abnormally to speculation that the interest rate differential between the dollar and the baht would narrow, and the exchange rate began to move sharply higher. The TTB rate of 36.69 baht on June 30 reached a high of 32.12 baht on September 30, an increase of 4.57 baht (equivalent to 12.5%) in three months. Although we took countermeasures using foreign exchange contracts, we were unable to keep up with the acceleration of the baht's appreciation, and as a result, we recorded a foreign exchange loss of 298 million baht in Q4, which significantly reduced our profit in FY2024.

The environment surrounding our Company is changing day by day. Among the factors, "environment" is something to be aware of when providing products and services to customers. Given certain problems, such as greenhouse gas emissions, companies are required to respond to issues and engage in environmentally friendly activities in order to continue their operations. In order to address these environmental issues, we are also engaging in business activities that emphasize the environment, such as the use of renewable energy and investment in energy-saving equipment.

METCO was established in Thailand in 1987, and 37 years have been passed since then. We have accumulated much experience as a company, and during that time, we have established many relationships with our shareholders and other related parties, which have brought us where we are today. We would like to ask for your continued support and kindness to our business.

October 2024

(Mr. Yoichi Muramoto)  
Chairman of Board of Directors

# MR. WANCHAI UMPUNGART

## Audit Committee's Report

**Dear Shareholders of Muramoto Electron (Thailand) Public Company Limited**

The Audit Committee consists of 3 qualified independent directors. In 2024, a total of 4 meetings were held and the Audit Committee members attended every meeting as follows:

Names of Audit Committee members	Title	Number of Attended Meetings
1. Mr. Wanchai Umpungart	Chairman of the Audit Committee	4/4
2. Mr. Nop Rojanavanich	Member of the Audit Committee	4/4
3. Mrs. Wongtipa Bunnag	Member of the Audit Committee	4/4

Mrs. Wongtipa Bunnag, is the secretary of the Audit Committee.

The Audit Committee has performed its duties within the scope of responsibilities assigned and in accordance with the charter of the Audit Committee, which is in compliance with the regulation of the Stock Exchange of Thailand. The Audit Committee together with the management, internal audit team and auditors to discuss relevant issues and report the meeting outcomes to the Board of Directors. The essence of the work performed can be summarized as follows:

### Financial Report

The Audit Committee had reviewed the Company's quarterly and the yearly financial statements as well as the consolidated financial statements of the Company and its subsidiary together with the auditors, management and Internal Audit by considering from important aspect and give advices and useful suggestions to ensure that the internal control process of the Company financial budget is accurate

and reliable, as well as to ensure that the disclosure of important information is sufficient and timeliness for the financial statement users. Which is also in accordance with the laws and related notices as well as in accordance with the regulations of Stock Exchange of Thailand and Securities and Exchange Commission and in comply with Financial Reporting Standards. In addition, the Audit Committee had a meeting with the auditors without any executives or management attended the meeting for inquiring about various issues of the results of auditing and the auditors did not have any information or special observation from the audit.

### Related Transaction or Conflict of interest transaction

The Audit Committee had considered and given opinions about connected transactions or transactions that may give rise to a conflict of interest with the Company and its subsidiary. The purpose is caution, rationality and taking into account the interest of the stakeholders and also includes adequate information in line with the conditions imposed by the Stock Exchange of Thailand.

### Internal Control System and Risk Management

The Audit Committee had reviewed the adequacy of the Internal Control Systems of the Company and its subsidiary, based on the reports of the internal audit and the auditors. The purpose is to assess the appropriateness and the efficiency of the Internal Control System, the risk management, and the business operations of the management that are in line with the established policies and delegation of the authority.

### Regulatory compliance and regulations

The Audit Committee had reviewed the Company's business operation to ensure that it is in line with the securities and exchange law, regulation of the Stock Exchange of Thailand and laws relation to the business of the Company and acknowledge the changing of regulations which have an effect on the company's business operation.

### Corporate Governance

The Audit Committee examined the Company's Corporate Governance in terms of anti-corruption compliance, taking into account the report of the internal audit team and the material report of the auditor. The Company's adequate and transparent process was recommended to comply with the policy and regulations.

### Internal Audit Governance

The Audit Committee had considered the independence of the Internal Audit Department, its scope of responsibilities and annual audit plan as well as considered the audit report and monitoring the implementation of solutions to significant issues mentioned in the audit report. Giving advice on how to improve and streamline the audit performance. The committee also considered the appropriateness of the budget, the workforce, training and personnel development and the annual performance appraisal of the Internal Audit.

### Considering the appointed Auditor and Compensation

The Audit Committee had selected the auditors and the auditor remuneration. By considering knowledge, capability, experience and quality of the auditors' works, auditors' statuses, significant limitations or the regulations of the Stock Exchange of Thailand or the regulations of the other related organizations to ensure that independence of the auditor and the neutrality on work performance.

The Audit Committee had selected the KPMG Phoomchai Audit Limited as company auditors and considered the auditors remuneration and proposed to the Board of Directors.

The Audit Committee deemed that the auditors had good understanding of the Company's businesses, practiced in a neutral and independence manner as well as regularly delivered its work on time, and as a result the Board of Directors proposed to the Annual General Meeting of Shareholders 2024 to appoint KPMG Phoomchai Audit Limited as the Company's auditor. The appointed auditors are:

- **Ms. Sujitra Masena**  
Certified Public Accountant license number 8645 and/or
- **Ms. Sirinuch Surapaitoonkorn**  
Certified Public Accountant license number 8413 and/or
- **Ms. Kittiya Suparat**  
Certified Public Accountant license number 12186

For the Accounting period ended September 30<sup>th</sup>, 2024, **Ms. Sujitra Masena** is the Certified Public Accountant who audited the Company's financial statements.

The Audit Committee deemed that during for the accounting period ended September 30<sup>th</sup>, 2024, the company had put in place the transparent, adequate and appropriate Internal Control Systems covering risky management and the company had established procedures that helped build confidence in Company's operation in accordance with the related laws by having good corporate governance along with the compilation and disclosure of adequate and reliable Company's financial report information.

**(Mr. Wanchai Umpungart)**

Chairman of Audit Committee

## **1.1.2 Significant changes and developments**

### **Competitive position**

The Company, as a manufacturing service company, has been improving customers' satisfaction by providing higher quality services, shorter delivery time and more reasonable cost than competitors. The Company will strengthen its competitiveness against major competitors through the following competitive advantages.

#### **1. Wide variety of production methods and technologies**

As a manufacturing service provider, the Company has created a wide variety of production methods and technologies which covering metal stamping, plastic molding, painting & printing, surface mounting on PCB, assembly of component parts and finished products, die & mold design, and manufacturing, also metal surface treatment. This wide variety gives the Company a greater ability than competitors to meet a wide variety of orders and demands from a wide variety of customers.

#### **2. Seamless integration of various manufacturing lines**

Having in-house various manufacturing lines applying a wide variety of production methods and technologies as mentioned above, the Company has been integrating them in the most effective way into assembling component parts and/or finished products. Through such seamless integration the Company provides the higher quality, shorter lead time and lower cost to customers.

#### **3. Well-coordinated cross-functional cooperation**

Due to all employees of the Company realize their value very well through the history and experience of such integration as mentioned above. The Company has well-coordinated cross-functional cooperation all through its organizations covering not only production but also sales, logistics, procurement and administration. This cooperation enhances customers' trust and satisfaction to the Company.

 October Start production of **DMC3**.

**December** 15<sup>th</sup> Anniversary  
**2003** February Installed **METCO-AIDA** multi press (MMX), Installed **OMS-600 3D** measuring machine.  
 October Accreditation of **ISO/ TS16949 : 2002** for **METCO** and **SIMA**

Accreditation of **ISO9001 : 2000** for **METCO**  
**November** Accreditation of **ISO14001 : 1996** for **METCO**  
**2004** July Start production of exterior painting, printing and assembly at **METCO2**

**2005** October Start production of the **Ink jet printer** at **METCO3** and transfer **SMT** lines to **METCO3**

## 2007 20<sup>th</sup> Anniversary

- 2008 December** 20<sup>th</sup> Anniversary
- 2009 October** Start production of the thermal printer.
- 2009 January** Starts production of **KTC (Kanagata Technical Center)**
- July** **SIMA** start production gilding metal part. Start production of the backlight unit for **LCD**.
- 2010 October** **SIMA** start machining business.
- 2010 March** Start production of High-Density Surface Mounting and Dip Soldering line.
- 2010 April** Laser marker is installed for the printing process.
- 2010 June** Installation of two color injection mold machine.
- 2010 September** Start production of Escutcheon.
- 2010 October** Start production of small and medium backlight unit.
- 2012 December** 25<sup>th</sup> Anniversary
- 2013 January** Start production of Keyless Entry unit for 4 wheels car.
- 2013 June** Start production of Automotive Center Panel Unit.
- 2015 September** Achieved “**CSR-DIW Award**” from Department of Industrial Work.
- 2015 December** Accreditation of **ISO14001:2015** for **METCO**
- 2016 July** Start production of Keyless Entry Unit for 2 wheels motorcycle. Achieved “**CSR-DIW continuous award**” from Department of Industrial Work.
- 2016 November** Achieved “**Green industry (Level 4) certification**” from Ministry of Industry.

## 2017 30<sup>th</sup> Anniversary

- 2017 August** 10<sup>th</sup> consecutive years of Thailand labour management excellence award.
- 2017 September** Accreditation of **OHSAS18001:2007** for **METCO**
- 2017 December** 30<sup>th</sup> Anniversary  
Start production of car audio panel.

- 2018 February** Accreditation of **IATF16949:2016** for **METCO**
- 2018 March** Accreditation of **ISO9001:2015** for **METCO**
- 2018 June** Start production of car navigation panel. Accreditation of **ISO9001:2015/ IATF16949:2016** for **SIMA**
- 2018 August** Achieved **3Rs Award**  
**SIMA Technology Co., Ltd.** Start plastic injection business.
- 2019 October** Start production of **EPSON** eco tank printer.
- 2020 June** Accreditation of **ISO14001:2015** for **SIMA**
- 2020 April** Business continuity planning (**BCP**) to fight against **COVID-19**
- 2020 September** Accreditation of **ISO45001:2018** for **METCO**
- 2020 November** The holy stone laying ceremony of new canteen & storage at **METCO3** on 4<sup>th</sup> November 2020
- 2021 June** Achieved “**Green industry (Level 4) certification**” from Ministry of Industry.

## 2022 Start to solar power generation

- 2022 November** **METCO3** Start to solar power generation
- 2022 December** 35<sup>th</sup> Anniversary

## 2023 Using 100% of renewable electricity energy (REC)

- 2023 April** **METCO** Using 100% of renewable electricity energy (REC)
- 2024 April** Accreditation of Greenhouse Gas Verification Statement **ISO14064-1:2018** for **METCO**
- 2024 June** Achieved “**Green industry (Level 4) certification**” from Ministry of Industry.

## 1.2 Nature of Business

Muramoto Electron (Thailand) Public Company Limited and Sima Technology Co., Ltd., which is subsidiary call “the Group”, are the manufacturing of electrical parts for automotive, office automation (Ink jet printer) and other parts by using 7 functions as follows :

1. Metal stamping
2. Plastic molding
3. Painting and Printing
4. Surface mounting on PCB
5. Assembly
6. Die and Molds production
7. Metal Surface treatment

### 1.2.1 Income Structure

#### Major Product

The Major Product of the Group are categorized segment as follow :

1. Electronic parts for the automotive
2. Electronic parts for office automation
3. Other Electronic parts

Income structure of the Group for the last three years as follows :

*Unit : Baht*

Detail	2024	2023	2022
<b>Total revenue</b>	15,833,113,852	17,908,076,412	18,556,960,681
Electronic parts for the automotive	3,177,896,845	3,527,895,384	3,928,115,002
Electronic parts for office automation	12,048,160,839	13,609,307,289	14,097,290,568
Others Electronic parts	607,056,168	770,873,739	531,555,111

*Unit : Percentage*

Detail	2024	2023	2022
<b>Total revenue</b>	100.0	100.0	100.0
Electronic parts for the automotive	20.1	19.7	21.2
Electronic parts for office automation	76.1	76.0	76.0
Others Electronic parts	3.8	4.3	2.8

Total income of the Group for the year 2024 decreased 11.6% when compared with year 2023.

Total revenue by Geographical as follows :

*Unit : Baht*

Detail	2024	2023	2022
<b>Total revenue</b>	15,833,113,852	17,908,076,412	18,556,960,681
Domestic	6,755,894,780	13,010,585,615	13,198,127,452
Japan	8,955,465,904	4,778,681,692	5,164,221,678
Other	121,753,168	118,809,105	194,611,551

*Unit : Percentage*

Detail	2024	2023	2022
<b>Total revenue</b>	100.0	100.0	100.0
Domestic	42.7	72.6	71.2
Japan	56.6	26.7	27.8
Other	0.7	0.7	1.0

## **1.2.2 Product Information**

### **1.2.2.1 Characteristics of Products or Services and Innovation Development**

#### **1.) Automotive electronic parts**

##### **1.1) Domestic market**

Automotive electronic parts such as a Keyless, the Company mostly sell domestic to electrical industry maker for using in Thailand.

##### **1.2) Oversea Market**

The Company's oversea market is divided into two categories.

1.2.1) Direct sales to manufacturers and distributors.

1.2.2) Selling through overseas marketing agents by Muramoto Group which have to distribute through foreign marketing agents because the products are required the technicians supported, if the company directly sell to the customer this will increase marketing costs from setting up the branch offices and provide technicians for giving advice to customers. The foreign marketing agents are :

- Muramoto Industry Co., Ltd. (MIC)  
the Marketing agent for the distributors in Japan.
- Muramoto USA Inc. (MUI)  
the Marketing agent for the distributors in USA.

#### **2.) Office automation electronic parts and others**

##### **2.1) Domestic Market**

Office automation electronic parts and others such as printers, the Company sell directly as customer's order.

##### **2.2) Oversea Market**

Office automation electronic parts and other manufacturers which originally had a production based in Japan and now the productions have been moved outside of Japan. Most of these manufacturers will rely on the relationship between their parent and some of the parent companies of these manufacturers do not allow their subsidiary to order the materials directly. Therefore, the foreign customers are categorized as follows :

2.2.1) Direct sales to manufacturers in foreign countries.

2.2.2) Selling through overseas marketing agents by Muramoto Group which is Muramoto Industry Co., Ltd. (MIC), the mostly marketing agent for the distributors.

## Products Information

Segment/ Field	Name of Product	Description	Customer	Dealer	FY2024 Sales volume
Automotive/ Car Audio	Blu-ray Audio Mecha	Blu-ray Audio Mecha is a navigation system that can display maps etc. in full screen mode on a 12.3 inch wide screen. It is also equipped with a micro SD card slot, by which music data saved in a micro SD card on a personal computer or an audio device can be played back in the car.	Panasonic	Many automakers, such as Toyota, Nissan, Honda, Mazda, Isuzu, GM, BMW and Volvo	60 Thousand sets
Automotive/ Car navigation	Car Navigation (Center Panel)	Car Navigation is the panel part of a device that displays on board the location of your car, road maps and road conditions to support your driving.	Denso Ten	Many automakers, such as Toyota, Nissan, Honda, Mazda, Isuzu, GM, BMW and Volvo	0.3 Million sets
Automotive/ Others	Keyless Entry (Transmitter)	Keyless Entry is an electronic lock that controls access to your car without the use of a conventional mechanical key.	Mitsubishi Automotive	Mazda	4.6 Million sets
Automotive/ Others	Car Sensor	Car Sensor is a device that detects obstacles at the four corners of the car with ultrasonic sensors installed on the four corners of the car on the front and rear bumpers.	Mitsubishi Automotive	Many automakers, such as Toyota, Nissan, Honda, Mazda, Isuzu, GM, BMW and Volvo	5.5 Million sets
Office Automation/ Printer	Epson Ink jet Printer	Epson's ink jet printer (finished product) as OEM (Original Equipment Manufacturing) consigned by SEIKO EPSON.	SEIKO EPSON	SEIKO EPSON	4.8 Million sets

## Pricing Policy

The Company has a policy to set the price as a standard which will be determined in accordance with the supply and demand of the market. Nevertheless, the Company's customers are a continuous industry group both domestically and internationally. Therefore, the trading price is flexible, which depends on the order quantity and production capacity at that time. Mostly prices are set in US dollars, though the product is sold in the country or abroad.

## Investment Promotion

The Company has received 9 Investment promotion certificates from the Board of Investment, the details of the certificates are below :

Promotion Certificate No.	Rights and benefits	Conditions
<p><b>1370/SorOr/2531</b> To manufacture metal parts of television tubes, electronic equipment metal parts.</p>	<ol style="list-style-type: none"> <li>1. Corporate income tax exemption for net profit received from the promoted business for a period of 3 years from the date of earning income (expires on October 3<sup>rd</sup>, 1991).</li> <li>2. Exemption of import duty on raw materials and essential materials that must be imported from abroad for use in production for export.</li> <li>3. Permission to deduct assessable income in the amount equal to 5% of the increase in income from the previous year from exports for a period of 10 years from the date that income from the operation of the business and except on the export income in that year must not be lower than the average export income of the past 3 years, except the first 2 years.</li> <li>4. Permission to own the land in the amount that the Board deems appropriate.</li> <li>5. Permission to import or remit money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. The size of the business that has a production capacity of pieces of metal parts of television tubes or receivers approximately 48,560,000 per year (working time 20 hours/day : 295 days/year).</li> <li>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht. If investment size excludes cost of land and working capital of less than 1 Million Baht, all rights and benefits shall be revoked.</li> <li>3. Must save or import net foreign currency not less than 1 Million USD per year. If any year does not meet this condition, all rights and benefits of corporate income tax exemption shall be revoked.</li> </ol>

Promotion Certificate No.	Rights and benefits	Conditions
<p><b>1196/SorOr/2533</b> To produce electronic parts and other product parts</p>	<ol style="list-style-type: none"> <li>1. Exemption from import duty and trade taxes on molds for the manufacture of electronic parts and other product parts.</li> <li>2. Exemption from import duties and trade taxes on raw materials and essential materials that must be imported from abroad for using in production for export</li> <li>3. Permission to deduct assessable income in the amount equal to 5% of the income increased from the previous year from export for a period of 10 years from the date of earning from that business. The export income of that year must not be lower than the average export income of the past 3 years, except the first 2 years.</li> <li>4. Permission to own the land in the amount that the board deems appropriate.</li> <li>5. Permission allowed to bring or send money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. The size of the business has the capacity are <ul style="list-style-type: none"> <li>- Approximately 769,591,200 metal parts per year</li> <li>- Approximately 73,543,680 plastic parts per year</li> <li>- Outsert part or assembly part approximately 26,365,920 pieces per year (Working time 20 hours/day : 288 days/year)</li> </ul> </li> <li>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht. If investment size excluding cost of land and working capital is less than 1 Million Baht, all rights and benefits shall be revoked and benefits will be revoked and shall not be approved to amend the project to increase production capacity by receiving benefits according to the same criteria again.</li> </ol>
<p><b>1306/SorOr/2534</b> To produce metal stamping parts</p>	<ol style="list-style-type: none"> <li>1. Exemption of import duty for molds.</li> <li>2. Exemption from import duty on raw materials and essential materials that must be imported from abroad for using in production for export.</li> <li>3. Permission to deduct assessable income in the amount equal to 5% of the increase in income from the previous year from export for a period of 10 years from the date of earning from that business. But the export income of that year must not be lower than the average export income of the past 3 years, except the first 2 years.</li> <li>4. Permission to own the land in the amount that the Board deems appropriate.</li> <li>5. Permission to bring or send money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. The size of the business has capacity of metal stamping parts is approximately 132,818,322 pieces per year (Working time 20 hours/day : 295 days/year)</li> <li>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht. If investment size excluding cost of land and working capital is less than 1 Million Baht, all rights and benefits will be revoked.</li> </ol>

Promotion Certificate No.	Rights and benefits	Conditions
<p><b>1136/SorOr/2536</b> To produce electronic parts and other product parts</p>	<ol style="list-style-type: none"> <li>1. Received half of the import duty reduction for only the machinery that is not in the list of the reduction of import duty according to the Ministry of Finance Notification No. SorKor.13/2533, except the list of machinery with an import duty of less than 10% will not be granted abatement.</li> <li>2. Exemption of import duty for molds.</li> <li>3. Exemption of import duty on raw materials and essential materials that must be imported from abroad for use in production for export.</li> <li>4. Permission to hold ownership of the land in the amount that the Board deems appropriate.</li> <li>5. Permission to bring or send money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. The size of the business is the production capacity of parts. Electronic and other product parts as follows : <ul style="list-style-type: none"> <li>- Metal parts are approximately 578,640,000 pieces per year</li> <li>- Plastic parts are approximately 55,296,000 pieces per year</li> <li>- Components are approximately 19,824,000 pieces per year. (Working time 20 hours/day : 288 days/year)</li> </ul> </li> <li>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht. If investment size excluding cost of land and working capital is less than 1 Million Baht, all rights and benefits shall be revoked.</li> </ol>
<p><b>1292/2543</b> To produce metal parts for Electrical Machine or electronic products</p>	<ol style="list-style-type: none"> <li>1. Exemption from import duty on raw materials and essential materials that must be imported from abroad for use in production for export.</li> <li>2. Permission to hold ownership of the land in the amount that the Board deems appropriate.</li> <li>3. Permission to bring or send money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. The size of the business is approximately 300,000,000 pieces of metal parts for Electrical Machine or electronic products per year. (Working time 20 hours/day : 288 days/year)</li> <li>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht. If investment size excluding cost of land and working capital is less than 1 Million Baht, all rights and benefits will be revoked.</li> </ol>

Promotion Certificate No.	Rights and benefits	Conditions
<p><b>1039/2545</b> To produce Printed Circuit Board Assembly</p>	<ol style="list-style-type: none"> <li>1. Exemption from import duty for raw materials and essential materials that must be imported from abroad for use in production for export.</li> <li>2. Exemption of import duty on machinery as approved by the Board.</li> <li>3. Permission to hold ownership of the land in the amount that the Board deems appropriate.</li> <li>4. Permission to bring or send money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. The size of the business has capacity is approximately 32,047,000 sets of Printed Circuit Board Assembly per year. (Working time 24 hours/day : 288 days/year)</li> <li>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht.</li> </ol>
<p><b>1862/2548</b> To produce office automation equipment</p>	<ol style="list-style-type: none"> <li>1. Exemption from import duty for raw materials and essential materials that must be imported from abroad for using in production for export.</li> <li>2. Exemption from import duty on goods imported for re-export.</li> <li>3. Permission to hold ownership of the land in the amount approved by the Board.</li> <li>4. Permission to bring or send money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. The size of the business has capacity of automatic office equipment such as Printer, Multifunctional Machine, etc. is approximately 7,279,566 units per year. (Working time 21 hours/day : 353 days/year)</li> <li>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht.</li> </ol>

Promotion Certificate No.	Rights and benefits	Conditions
<p><b>1840(2)/2551</b> To produce electronic product parts such as LCD Module and LCD Back Light</p>	<ol style="list-style-type: none"> <li>1. Exemption from import duty for raw materials and essential materials that must be imported from abroad for using in production for export.</li> <li>2. Exemption of import duty on goods imported for re-exporting.</li> <li>3. Permission to hold ownership of the land in the amount approved by the Board.</li> <li>4. Permission to bring or send money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. The size of the business has capacity of product parts for electronic products such as LCD Module and LCD Back Light etc. is approximately 36,000,000 pieces per year (working time 21 hours/day : 277 days/year)</li> <li>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht. The exempted corporate income tax is not more than 75 Million Baht.</li> </ol>
<p><b>1638/2555</b> To show that Company have been promoted for investment in the business International Parts and Products Sourcing Center (International Procurement Office–IPO)</p>	<ol style="list-style-type: none"> <li>1. Permission to bring foreigners who are skilled workers or experts into the Kingdom in an amount and determine the period of stay in the Kingdom as considered.</li> <li>2. Permission to hold ownership of land in the amount approved by the Board.</li> <li>3. Exemption of import duty on machinery as approved by the Board.</li> <li>4. Exemption from import duty on raw materials and essential materials imported from abroad for use in production for export for a period of one year. from the date of first import.</li> <li>5. Exemption of import duty on goods imported by the promoted person for re-exportation for a period of one year from the date of first importation.</li> <li>6. Permission to bring or send money out of the Kingdom in foreign currency.</li> </ol>	<ol style="list-style-type: none"> <li>1. It must be implemented in accordance with the essence of the promoted project in the following matters. <ul style="list-style-type: none"> <li>- International procurement center for parts and products.</li> <li>- Business scope procurement of raw materials components and parts for the chemical and plastics industry Electronics and electrical machine and automotive industries .To wholesale in the country and export abroad However, it must not be in the business of broker or agents.</li> <li>- Must have or rent a warehouse and has a computerized inventory management system.</li> <li>- There must be a procurement activity, product quality inspection, and product packaging.</li> <li>- There must be multiple sources of procurement and at least there must be a source of procurement from the country as well.</li> <li>- Approvals or operating permits from government agencies are required in accordance with relevant laws.</li> </ul> </li> </ol>

Promotion Certificate No.	Rights and benefits	Conditions
<p><b>1638/2555</b></p> <p>To show that Company have been promoted for investment in the business International Parts and Products Sourcing Center (International Procurement Office–IPO)</p>		<ul style="list-style-type: none"> <li>- Must have an action plan including plans to import craftsmen and experts as approved by the Board</li> <li>- Raw materials and essential materials are imported from abroad. The exemption from import duty must be used for manufacturing, mixing, assembling, or repacking for export only.</li> </ul> <p>2. Must have investment size excluding cost of land and working capital of not less than 1 Million Baht.</p>

### **1.2.2.2 Market and Competition**

#### **1.) Competitive Strategy**

The Company is a manufacturer of parts and components for electrical appliances and electronic equipment which is supporting industry. Therefore, the customers of the Company are the other manufacturers including manufacturers of electrical appliances and electronics finished goods manufacturer for export and manufacturers in other regions in the world. The Company has the marketing strengths as follows :

##### **1.1) The joint investment between the Company and Muramoto Industry Company Limited., Japan.**

Japan is the world's largest manufacturer of electrical appliances and electronic equipment. Although the industrial situation in Japan is sluggish due to the economic contraction of Japan, then the Japanese manufacturers have expanded its production to other regions instead. Especially, the Indochina region due to cheaper of the labor wages. Normally, the nature of business of Japanese businessmen will be in the manner of trading between Japanese companies, especially the long-relationship companies. Therefore, the Company get benefited from being a subsidiary of Muramoto Industry Company Limited. (Japan) which is the parent company that has long-relationship with customers for a long time. The parent company provide support on the marketing and the distribution for the customer in the other countries such as Philippines and Indonesia.

##### **1.2) Products quality**

This industry requires high skill and high technology production to get the efficiency of production with minimize loss to lower costs. Especially on making molds for parts production which is the heart of business. This will require specialized knowledge and expertise to design molds that will get the accurately and precisely part production also less cost and worthwhile useful life. Due to mold is the high cost and need well maintenance to extend its useful life. The Company is assisted by the parent company which has over 80 years' experience in this industry for the process of designing mold with standard technology production and accepted for the quality of its product.

##### **1.3) Low production cost**

Although the price is not a key competitive factor, the buyer will focus on the quality as the top priority. Nevertheless, the Company has an efficient production system together with the supporting from parent company for providing the raw materials and other parts are needed in production and the Company has improved our production to produce plastic parts by ourselves, these caused the Company's production costs has significantly reduced and make the Company get more profitability.

##### **1.4) Human resource development**

The Company focuses on human resource development which is a major key factor for the success of its operation. Some of the employees will be abroad training in Japan and the Company has supporting dispatching specialists from parent company for propagate technology such as designing and quality control, etc.

### **1.2.2.3 Procurement of raw material and services**

The Company procures raw materials from 2 sources which are the parts produced in the country and the parts that are not produced in the country. The Company purchases from domestic manufacturers and the parts that are not produced in the country, the Company is procured through the parent company due to those parts are made in Japan, and this helps company to save the cost of procuring raw materials by itself and including purchasing directly from the manufacturer and distributors from the other countries.

The purchase of raw materials of the Company can be categorized to be as follows :

#### **1.) Domestic purchase**

Domestic purchase of raw materials which is approximately 85.85% of the purchase value of all types of raw materials. The Company purchases each type of raw material by ordering from many raw material suppliers in order to have bargaining power to the Key distributors.

#### **2.) Importing purchase**

Importing purchase of raw materials which is approximately 14.15% of raw material purchase value. The raw materials orders are plastic parts and metal parts which is not produced in Thailand. The manufacturers of these raw materials are retail manufacturer or small size industries in Japan. Purchasing directly from these companies will increase the company's raw material procurement costs. Therefore, the Company get the support of its parent companies providing these raw materials from small-scale manufacturer in Japan and then send it to the Company. The parent company will charge on the price from the cost plus any expenses related to the procurement. The parent company promises that these costs will be not exceed 5% of the cost of the parts.

The purchasing of raw materials from the parent company is in accordance with the existing technical assistance contract between the Company and the parent company which help the Company to save cost and cost of raw material procurement. The additional benefit for the Company is the procurement of such raw materials by the parent company which has knowledge, expertise, and experience in the business for a long time which helps us on the selection process and the quality control of raw materials. Currently, the Company has developed its own production of plastic parts to replace importing. In addition, small-scale manufacturers in Japan have moved production bases to Thailand to avoid the problem of high labor costs in Japan. Therefore, the Company expects that importing purchase of raw materials will decrease in the future.

#### **1.2.2.4 Assets for the Business Operations**

##### **1.) Assets of Muramoto Electron (Thailand) Public Company Limited**

Most of the Assets of are land, office buildings and factories, machinery and equipment which are listed below :

##### **1.1) Land**

The Company has office Building on the Plants its own 3 lands which are :

1.1.1) METCO1 : Head office and factory on Ramindhra Road Km.12.5

Total area 12 Rai, 2 Ngan, 62 Square Wa

Located on 886 Ramindhra Rd., Khwaeng Kannayao,  
Khet Kannayao, Bangkok 10230

The Company is the owner and has no other obligations.

1.1.2) METCO2 : factory on Bangna-Trad Road Km. 25

Total Area 50 Rai 0 Ngan 1 Square Wa

Located on 1 Mu 6 Bangna-Trad Road Km. 25, Tambol Bangsaowthong,  
Amphur Bangsaowthong, Samutprakarn 10570

The Company is the owner and has no other obligations.

1.1.3) METCO3 : factory on Bangna-Trad Road Km. 23

Total Area 28 Rai 2 Ngan 46.5 Square Wa

Located on 99/7 Mu 3 Bangna-Trad Road Km. 23,  
Tambol Bangsaowthong, Amphur Bangsaowthong, Samutprakarn 10570

The Company is the owner and has no other obligations.

##### **1.2) Buildings**

The Company has buildings and factories as follows :

1.2.1) There are 3 Buildings and factories at METCO1

The Company is the owner and has no other obligations.

1.2.2) There are 5 factory Buildings at METCO2

The Company is the owner and has no other obligations.

1.2.3) There is 1 factory Building at METCO3

The Company is the owner and has no other obligations.

##### **2.) Assets of Sima Technology Company Limited**

Most of the Assets of are land, office buildings and factories, machinery and equipment which are listed below :

##### **2.1) Land**

Sima Technology Company Limited has the office building and factory on its land which is the office building and factory at Amphur Pakthongchai, Nakornratchasima  
Total Area 62 Rai

Located on 99 Mu 1 Tambol Thongchainue, Amphur Pakthongchai, Nakornratchasima  
Sima Technology Company Limited is the only owner and has no other obligations.

##### **2.2) Buildings**

Sima Technology Company Limited has 2 office Buildings and factories.

Sima Technology Company Limited is the only owner and has no other obligations.

### 1.2.2.5 Undelivered Products

Normally, the Company has a very small amount of unfinished work compared to sales because the Company produces the products according to customers' orders that have been ordered in advance for a long time. Therefore, the Company has planned the production plan in advance then produce as the plan efficiently. Therefore, the products can be delivered on time. Therefore, the undelivered products at any point in time are usually only the products that are on production line and waiting for delivery.

1.) The Company has the Undelivered products as of September 30<sup>th</sup> as listed below :

*Unit : Million Baht*

Undelivered Product	2024	2023	2022
Work in progress	140.65	136.24	166.24
Finished goods	740.17	305.22	330.82
<b>Total</b>	<b>880.82</b>	<b>441.46</b>	<b>497.06</b>

2.) Sima Technology Co., Ltd. (Subsidiary) has the Undelivered products as of September 30<sup>th</sup> as listed below :

*Unit : Million Baht*

Undelivered Product	2024	2023	2022
Work in progress	78.58	86.10	133.71
Finished goods	132.95	173.45	216.24
<b>Total</b>	<b>211.53</b>	<b>259.55</b>	<b>349.95</b>

## 1.3 Shareholding Structure

### 1.3.1 Shareholding structure of the group of companies

Only one shareholder holding more than 10% of the total shares of the Company is Muramoto Industry Company Limited whose shareholding within last 5 years as follows :

	Number of shares holding	Percentage of Shares
September 30 <sup>th</sup> , 2024	15,099,920	72.25
September 30 <sup>th</sup> , 2023	14,907,420	71.33
September 30 <sup>th</sup> , 2022	14,907,420	71.33
September 30 <sup>th</sup> , 2021	14,907,420	71.33
September 30 <sup>th</sup> , 2020	14,907,420	71.33

### 1.3.2 Person with a potential conflict of interest holds shares of a subsidiary or related company at an amount exceeding 10 percent of the voting shares.

- None -

### 1.3.3 Relationship with shareholders' business group

<b>Muramoto Industry Co., Ltd. - MIC (Parent Company)</b>	
<b>Nature of business</b>	Manufactures Press part, Plastic parts, Dies, Mold and Procurement of Electronics Parts for Group Companies.
<b>Established</b>	1935
<b>Headquarter Location</b>	Kobe, Japan
<b>Registered Capital</b>	160 Million Yen
<b>Paid-up Capital</b>	80 Million Yen
<b>Major Shareholders</b>	Muramoto Industry Shareholders' Association Made up of Directors 85.50%, Mr. Yoichi Muramoto 1.67%, Mr. Hajime Suda 7.53%, Others 5.30%
<b>The Board of Directors</b>	Mr. Yoichi Muramoto Mr. Shigeru Takamatsu Mr. Shinichiro Yamamoto
<b>Relationship in terms of mutual shareholding between Muramoto Electron (Thailand) Public Company Limited</b>	Holds 72.25% of the Company's shares
<b>Business relations with Muramoto Electron (Thailand) Public Company Limited</b>	MIC has signed contract to provide any assistance in technology and business development with the Company. In addition, the Company purchases materials and other parts from MIC, in the other hand, MIC also purchases manufactured parts by the Company.
<b>Trade Value with Muramoto Electron (Thailand) Public Company Limited</b>	Oct 1 <sup>st</sup> , 23 – Sep 30 <sup>th</sup> , 24 Purchase value 1,945.0 Million Baht Selling value 53.1 Million Baht Oct 1 <sup>st</sup> , 22 – Sep 30 <sup>th</sup> , 23 Purchase value 2,188.5 Million Baht Selling value 64.0 Million Baht Oct 1 <sup>st</sup> , 21 – Sep 30 <sup>th</sup> , 22 Purchase value 1,951.7 Million Baht Selling value 61.6 Million Baht
<b>Relationship in terms of Financial Support</b>	Parent Company has guarantee for the Company

## Sima Technology Co., Ltd. - SIMA (Subsidiary)

<b>Nature of business</b>	Production of Metal Pressing, Injection Molding, Module Assembly, Manufacture of Electronic Parts & Medical Instrument
<b>Established</b>	1995
<b>Headquarter Location</b>	Nakornratchasima, Thailand
<b>Registered Capital</b>	300 million Baht
<b>Paid-up Capital</b>	300 million Baht
<b>Major Shareholders</b>	The Company holdings 99.99% of shares
<b>The Board of Directors</b>	Mr. Kazunobu Kawabe Mr. Yoichi Muramoto
<b>Relationship in terms of mutual shareholding between</b> Muramoto Electron (Thailand) Public Company Limited	The Company holds 99.99% of shares and other holdings 0.01 %
<b>Business relations with</b> Muramoto Electron (Thailand) Public Company Limited	The Company sells PCB Parts and plastic parts to SIMA and purchases metal parts and plastic parts from them.
<b>Trade Value with</b> Muramoto Electron (Thailand) Public Company Limited	Oct 1 <sup>st</sup> , 23 – Sep 30 <sup>th</sup> , 24 Purchase value 0.1 Million Baht Selling value 97.3 Million Baht Oct 1 <sup>st</sup> , 22 – Sep 30 <sup>th</sup> , 23 Purchase value 0.3 Million Baht Selling value 116.9 Million Baht Oct 1 <sup>st</sup> , 21 – Sep 30 <sup>th</sup> , 22 Purchase value 0.3 Million Baht Selling value 132.8 Million Baht
<b>Relations in terms of Financial Support</b>	No mutual financial support

## Muramoto Audio-Visual Philippines Inc. - MAPLE (Related Company)

<b>Nature of business</b>	(Automotive-related) Assembly of Car audio-video mechanism parts. (Non-automotive-related) Assembly of ATM cassette parts, other metal and plastic parts.
<b>Established</b>	1990
<b>Headquarter Location</b>	Cebu, Philippines
<b>Registered Capital</b>	980 million Pesos
<b>Paid-up Capital</b>	616 million Pesos
<b>Major Shareholders</b>	Muramoto Industry Co., Ltd. holdings 100% of shares
<b>The Board of Directors</b>	Mr. Yoichi Muramoto Mr. Hideshi Ishikawa Mr. Masahiro Taruya Mr. Ikuo Kuribayashi
<b>Relationship in terms of mutual shareholding between</b> Muramoto Electron (Thailand) Public Company Limited	No mutual shareholding
<b>Business relations with</b> Muramoto Electron (Thailand) Public Company Limited	The Company sells plastic parts to MAPLE
<b>Trade Value with</b> Muramoto Electron (Thailand) Public Company Limited	Oct 1 <sup>st</sup> , 23 – Sep 30 <sup>th</sup> , 24 Purchase value 16.0 Thousand Baht Selling value 0 Million Baht Oct 1 <sup>st</sup> , 22 – Sep 30 <sup>th</sup> , 23 Purchase value 4.4 Million Baht Selling value 0 Million Baht Oct 1 <sup>st</sup> , 21 – Sep 30 <sup>th</sup> , 22 Purchase value 29.6 Million Baht Selling value 0 Million Baht
<b>Relations in terms of Financial Support</b>	No mutual financial support

## P.T. Muramoto Elektronika Indonesia. (Related Company)

<b>Nature of business</b>	Metal Pressing, Injection Molding, Finished Product & Module Assembly and Die Design & Manufacturing
<b>Established</b>	1995
<b>Headquarter Location</b>	Jakarta, Indonesia
<b>Registered Capital</b>	10 million US Dollars
<b>Paid-up Capital</b>	10 million US Dollars
<b>Major Shareholders</b>	Muramoto Industry Co., Ltd. holdings 99.99% of shares and other holdings 0.01%
<b>The Board of Directors</b>	Mr. Hideyuki Kataoka Mr. Masaya Hashimoto

Dividend per share	Baht/share	8.00	10.00	18.00
Pay Out Ratio	%	65.55	98.18	57.15

## 2. Risk Management

### 2.1 Risk Management Policy and Plan

The Company realizes the importance of sustainable risk management covering most key risks that could affect the Company's business. The Risk management Committee's duties and responsibilities are to analyze and evaluate incurred or possibly incurred risks continuously and annually, develop and review risk management policies to keep risk in acceptable level, establish risk management procedures according to the risk management policies and delegate the risk management to responsible manages, review the effectiveness of the risk management procedures and report to the Risk management Committee to update situation of the risk management and progress of the risk management procedures together with the results. The Risk Management Committee meets at least once a year and reports to the Board of executives for their acknowledgement.

### 2.2 Risk factors on business operation

#### 2.2.1 Emerging risk

The Company has assessed emerging risks by asking different departments to consider risk factors in all activities. For emerging risks, there is a risk of cyber threats, risk from the implementation of the Personal Data Protection Act (social risks) also the risk of greenhouse gases.

Greenhouse gas emissions blanket the Earth, they trap the sun's heat. This leads to global warming and climate change. The world is now warming faster than at any point in recorded history. Warmer temperatures over time are changing weather patterns and disrupting the usual balance of nature. It may affect the life of living on earth and the Company's future operation. To reduce the risk of greenhouse gases, the company has acted as following.

1. Energy Efficiency
2. Renewable Energy
3. Supply Chain management
4. Waste Reduction and Diversion Strategies
5. Reduce Greenhouse gas emission
6. Fuel Efficiency in Transportation and Logistics
7. Other Resources

#### 2.2.2 Shareholder Investment Risks

The value of investments into the Company can fluctuate significantly in the short term, depending on the situation in the market. Investments into the Company should be made for a long term in order that the Shareholder could avoid the risk of short-term price fluctuations.

	Risk factors	Risk management
<b>1. Business Risk</b>	<p>Having been established in 1987 as an integrated electronics parts and products manufacturer, the Company, under the Vision, “We shall strive to be the world’s best manufacturing service company by providing high quality products and services to ensure maximum customer satisfaction.”, aims for only one OEM manufacturer in the field of the electrical, electronical components and car parts finished goods which focuses on Differentiation Strategy by pursuing superior EQCD and complete customer satisfaction. The Company, through continuous development of better technology and improvement of productivity, is a manufacturer of components and semi-assembled products, as well as finished, products, having high capability and responsibility for marketing, production, sales, and distribution. The business risks of the Company are as follows.</p>	
1.1 Production Risk	<p>Production risk is a risk of the deficiency of products incurring during the production process, despite inspection. The Company must take full responsibility for damage that has resulted in a flawed product whether it has resulted from human error, machine failure or defect of parts purchased from outside suppliers. Presently, the Company is covering business areas so broadly from manufacturing simple parts to assembling more complex and high-valued products that risks relating to quality of parts purchased from outside suppliers, for instance, should be recognized as a supply chain risk and has become much more critical ones to the Company than it had a decade ago.</p>	<p>In order to ensure continuity and good quality of supply, the Company always pays special attention to managing key parts and their suppliers. Since last year the Company had started establishing a new system “Key/Critical Suppliers” and “Key/Critical Parts” in our supplier management Framework which ensure good quality and continuity of supply. The company not only evaluates the quality, technology, delivery performance, price, and other reliabilities of the suppliers, but also analyses their financial status. The Company has been entering into the Basic Transaction Agreement and the Quality Assurance Agreement with suppliers which play critical roles in quality management of its products. In addition to that, the Company, in 2018 has started revising the content of these agreements and pushing further in executing them in order to reduce and minimize this Production Risk.</p>
1.2 Product Liability Risk	<p>Product liability risk occurs with the utilization of the product by the end user; in case of injury, for example, of a consumer through faulty functioning of a product sold by the Company.</p>	<p>In order to prevent this risk, the Company constantly and carefully reviews specifications and design of products. Since the Company’s responsibility is basically on manufacturing the products designed by customers, the Company’s should take this Product liability Risk caused by product design as not so much critical as the customers.</p>
1.3 Inventory Risk	<p>Inventory risk is a risk arising from deterioration in the quality of raw materials, parts and manufactured products during storage. The Company is accountable for damage or loss caused by such deterioration of the inventories.</p>	<p>The Company always pays special attention to keeping the inventory in good quality and order by applying various principles, practices, and systems to inventory management. The Company has successfully established a new system which could up-grade its inventory management.</p>

	Risk factors	Risk management
1.4 Credit Risk	Credit risk is a risk due to a customer's inability to pay for their purchases and a payment failure by a supplier on its debt to the Company.	The Company is carefully checking daily paying performance of customers and suppliers. Before starting a transaction with any new customer or supplier the Company carefully investigates creditability of it. Since 2017, the Company started a credit control system including payment record investigation and credit rating of customers to maintain the minimize credit risk.
1.5 Market Risk	Market risk is possible loss of manufactured product, purchased parts and raw materials in inventory due to market change or sudden order cancellation from customers.	The Minimum Inventory Activity policy, which the Company has been deploying, is extremely essential in order to minimize this risk. The Company is well-prepared to meet any challenge in order to stay ahead of competitors in both product quality and product pricing; for instance, the Company is, through revising the Basic Transaction Agreement with suppliers, aiming to establish effective cooperation with them which could make both parties act more flexibly to the market changes.
1.6 Competition Risk	As a manufacturing service provider, the Company has to compete against not only competitors of the same business model but also the customer itself because the manufacturing provided by the Company must be better than or at least the same level of the customers. For the same reason, the Company should also compete against competitors of the customer. The Company inherently faces this kind of competition risk.	In order to compete and survive in the industry, the Company should further strengthen its competitive edges as follows ; <ul style="list-style-type: none"> <li>- Broad range of production method and technology as a manufacturing service provider including metal stamping, plastic molding, painting &amp; printing, surface mounting on PCB, assembly of component &amp; finished product, die &amp; mold design, die &amp; mold manufacturing, and metal surface treatment</li> <li>- Seamless integration of various manufacturing lines of assembling components and/or finished products applying various methods and technologies as mentioned above in the most effective way</li> <li>- Well-coordinated cross-functional cooperation established through the history and experience covering not only production but also sales, logistics, procurement and administration</li> </ul>
1.7 Economic Condition Risk	Since the Company has been involved in global supply chains relating to various industries, it is inevitably exposed to conditions of global economy. Now that global economic growth could face a serious slowdown driven by several events such as US-China trade war, China's economic slowdown, European economic volatility facing Brexit, tension in the Middle East causing oil price fluctuation etc., the Company's business could also face a downturn risk.	In order to manage all the aforementioned risks, the Company will continually monitor and analyze events which may affect the Company's business. Apart from the negative impact from an event, e.g. US-China trade war, if it may create any positive one by making a shift in global supply chains, the Company should take proper action without losing opportunity. In any case, under this kind of volatile situation, the Company should keep stringent due diligence process before making a decision.

	Risk factors	Risk management
<b>2. Technology Risk</b>	In the world of electrical and electronics appliances business development and progress has been there always, and accelerated more and more recently.	<p>The production of components has to keep pace and to be in line with this ever-evolving progress. The Company must make investment in a number of areas to maintain the lead over competition. These areas include high technology machinery, measuring equipment and the training of skillful engineers and workers.</p> <p>The Company has started a new project to correspond to the electronics industry to warding smaller, more efficient and more complicated designs, according to its mid-term business plan. The Company's technology and capability of die-making, which represent special value among its technical resources, should be important to secure valued orders from customers and to keep costs down. The Company has expanded its training program in this technology.</p>
<b>3. Workforce Risk</b>	The industry of electrical and electronic components production depends enormously on the workforce, not only on technicians and engineers but also on workers in production lines, where though the Company even uses high technology automatic machines and robots, it still relies very much on the human power and abilities as critical resource of its pursuing value.	The Company greatly values the importance of its personnel at all levels by setting employee welfare at a high standard. An executive/employee joint committee called CP&H Kai (Creation, Power & Harmony Committee) has been founded to coordinate and communicate effectively between executives and employees. In the past year, the operation rules of this committee have been improved by inviting more participation from employee side. This has promptly resulted some positive modifications of employee treatment through meeting with in the new committee. With actively working of this committee, company has achieved the greatest result in employee relations and has received "Thailand Labor Management Excellence Award" for 17 consecutive years.
<b>4. Financial Risk</b>	As many products of the Company are exported, directly and indirectly, to foreign countries, and a lot of raw materials and components, which are not available in Thailand, need to be imported in a foreign currency. Therefore, it is inevitable that the Company is exposed to currency exchange matters.	The Company has been making efforts in matching foreign currency income to the payment in the same currency in order to reduce the actual exchange profit or loss into acceptable level. In addition to that, the Company manages to minimize cash balance maintained in USD and JPY currency and utilizing financial tools including forward contract. The Company has established internal policies and rules covering such transactions. Concerning a risk on financial resource, the Company has built good relationships with financial institutions in Thailand as well as abroad in order to secure a long-term and stable fund facility for possible expansion, rehabilitation, and diversification of operation in the future.

	Risk factors	Risk management
<b>5. ESG Risk</b>	To achieve sustainable growth, the Company considers identifying and evaluating risks related to the environment, social, and governance as a critical management priority. In the environmental, we view the tightening of regulations due to climate change as a major risk. In the social, supply chain disruptions are significant, while in the governance, strengthening transparency is identified as a key risk.	The Company recognizes ESG risk management as an organization-wide challenge. In 2022, we established an ESG department, and in 2024, we established the Sustainability Committee ensure that each department addressing these issues in an integrated manner. Furthermore, the Company committed to reflecting changes in external environments and collaborating with suppliers, customers, and local communities to advance comprehensive initiatives aimed at mitigating risks.
5.1 Environmental Risk	The Company is always aware of its mission to provide society with environmentally sustainable and energy-efficient operation. Otherwise, environmental issue could be a significant risk to the Company.	The Company has been operating with ISO14001 certification for many years. In 2017, the Company successfully received a certification under the up-dated version of the system. Since 2016 the Company reached up to level 4 of the Green Industry qualification promoted by Thai government and then is keeping it. The Company has established internal policy “Safety, Health, Environmental Objectives and Action Plan 2024”. With such system, qualification and plan, the Company is continuously improving its sustainability including chemical substances control and waste materials management.
5.2 Regulatory and Legal Risks	Global regulations concerning climate change and sustainability are becoming increasingly stringent, posing risks of fines and business suspensions for non-compliance. Additionally, the costs of adapting to new regulations may increase.	The Company will enhance our information gathering on the strengthening of regulations and report to the executive board. The Company will also prepare in advance for new regulatory requirements.
5.3 Supply Chain Risks	Issues related to labor conditions and environmental impact within the supply chain pose risks of damage to the Company image and potential disruptions across the entire supply chain. There is a growing demand for the selection of business partners in accordance with ESG standards.	The Company will investigate and provide guidance for improvements regarding labor conditions and environmental conservation not only for our employees but also for on-site contractors and supplier employees. The company will implement compliance with the Responsible Business Alliance (RBA) Code of Conduct, which sets international labor standards for the electronics industry throughout our supply chain.

	Risk factors	Risk management
5.4 Risks Related to Social Inequality and Human Rights Violations	The widening social inequality and insufficient efforts to address human rights issues pose risks of declining employee morale and social criticism. There is a demand for ensuring diversity and providing fair labor conditions.	The Company has Human Rights Policy, clearly outlining risk analysis, mitigation measures, and compensation. The Company will address diversity and equitable labor conditions through dialogue with employee representatives. Additionally, the Company will work on issues related to indirect actions that may promote human rights violations within the supply chain.
5.5 Risks from Changes in Investor Expectations and Social Demands	As investor increased expectations regarding ESG continue, failing to respond adequately may result in risks such as shares withdrawal and fund raising costs.	The Company will communicate with stakeholders through the activities of the Sustainability Committee to better understand their expectations of the Company.
5.6 Compliance Risk	As a publicly listed company, the Company is required to comply with various laws and regulations. Any failure to comply with any one or more of such laws and regulations could expose the Company to penalties or other legal action against the Company and its Senior Management. In addition to that, such a failure could affect reputation of the Company and could damage trust of customers, business partners, communities and other stakeholders.	Since establishing the Good Corporate Governance Committee in 2016, the Company has been making continuous improvement of compliance-related matters, e.g. “The Company’s Regulations Re-Establishment Project” that concerned regulations were updated, renewed, or newly created continuously. In year 2024, the Company was qualified level 4 (“Very Good”) in the Corporate Governance Report of Thai Listed Companies (CGR) 2024 by the Thai Institute of Directors Association (IOD). The Company will continue and strengthen the improvement.
5.7 Corruption Risk	Corruption is a serious problem and obstacle of the Company’s sustainability which affect both financial and non-financial loss such as profit, penalty and reputation. Even in case the Company has strict measures and internal control, corruption can possibly occur anytime. The Company should give attention to and tackle this risk.	The Company has established Anti-Corruption Policy, Corporate Code of Ethics and related policies, and provides all the employees with educational programs. The Company also provides employees and business partners with the whistleblowing channel set in several different routes. The Risk Management Committee of the Company made a corruption risk assessment, as a trial basis, following “A Guide For Anti-Corruption Risk Assessment” published by United Nations Global Compact Office with the form, “Table of Corruption Risk Assessment” ANNEX 1 of the Self-Evaluation Tool for Countering Bribery, Private Sector Collective Action Coalition Against Corruption (CAC).

	Risk factors	Risk management
<b>6. Disaster Risk</b>	The Company could be exposed to risk from fire or natural disasters, which might interrupt production and bring a serious impact to the Company's business.	The Company has insurance for property damage in order to mitigate this risk. This year the Company has significantly reduced a temporally flood risk in a day of heavy rain by improving drain system around its factory. In addition, the Company could, based on the BCP, ask support from other plants of related companies in a same Group Company, which locate in Thailand and other countries.
6.1 Epidemic Risk	The outbreak of the COVID-19 has not yet seen an end and effects on the Company's operation cannot be predicted.	The Company has established a policy and practice guidance to conform to the guidelines of the Ministry of Public Health by passing information about disease prevention and hygienic care to employees to ensure the correct practice during the outbreak in order to be to continue the business. The Company also monitors the situation and news closely. We are promoting the vaccination of employees, and the vaccination status is over 99%. We are preventing the spread of infection by conducting regular continuous to antigen tests for all employees.
<b>7. IT-Security Risk</b>	Due to rapid and continuous progresses in information technology, there are risks associated to IT security or technological threats that could occur either as a result of system faults, human errors and cyber-attacks etc. If the information system is down or encounters any circumstances that cause data loss, data leakage, failure and/or malfunction, it would be a severe and serious impact to the Company's operation, competitiveness, reliability and eventually reputation in the industry.	The Company has re-established Information System Management Regulations as well as IT Security Policy. Under these Policy and Regulations, the Company has been managing security measures including firewall installation, hardware redundancy, anti-virus software, software patches, back-up facilities, access authorization to the critical systems etc. In addition to that, the Company has also been building awareness of employees to IT security issues through education and training and conducting regular risk assessment and audit.

## 3. Business Sustainability Development

### 3.1 Sustainability Policy

Under the Muramoto Group philosophy of "The world's best manufacturing service company by providing high quality products and service to ensure maximum customer satisfaction", We seek to achieve both a sustainability society and sustainability development of the Group.

Toward those purpose, we will respect dialogue to all stakeholders, based on the Corporate Governance Policy in line with social responsibility, the Environmental Policy in order to conduct business activities in an environmentally friendly manner and the Human Rights Policy, which respects the natural human rights for all people. We will play a role in achieving a sustainability society and increasing the corporate value.

1.) We will play to build mutual trust with society.

We will play to be a company that earns the trust of society by observing laws and regulations, by strengthening our governance structure, and by sincerely engaging in fair competition, the provision of high-quality products and services, timely and appropriate information disclosure, and other corporate activities.

2.) We will tackle environmental issues through our business activities.

Through our business activities, we will take a action to reduce CO2 emissions, minimize waste and promote reuse. At the same time by providing environmentally considerate products and services, we will contribute to bringing about a society that values the global environments.

3.) We will respect human rights and develop human resources.

We will respect the human rights of all stakeholders, regardless of gender, age, nationality, social status, disabilities, or other personal attributes. We will develop work environments in which diverse employees can work in safety and health, both physically and mentally, and will develop personnel systems and education and training systems that allow these employees to maximize their individual abilities. We will further work to develop human resources who will take on the challenge of innovation.

### 3.2 Management of impacts on stakeholders in the business value chain

#### 3.2.1 Business value chain

Since our founding as an independent comprehensive electronics trading company in 1987, we have kept up with our customers' changing demands and consistently provided the optimal solutions. We presently have three business domains: Automotive electronic parts, Office Automation equipment, and other electrical parts business. We have established a system to make our customers' request a reality wherever they need it. The Company has established value chain such as integrated synchronize manufacturing, covering plan consulting, design and development, contracting to manufacture high-mix, low-volume production as well as semi-finished and finished products, sales, and after-sales service. Then, we can respond quickly and flexibly to customer requests and support their businesses by solving problems.

1. Consultation

The successful key is to take ideas backed up by mutual trust, expand on them, and raise them to a new level. We carefully listen to our customers' requests until we can detect the real issue. Then we can work with our customers to come up with the most effective solution. We support our customers' businesses by being the industry's most powerful behind-the-scenes partner

## 2. Planning & Development

Parent company in Japan and abroad collaborate, each sharing its own particular strengths. We help our customers create plans that turn problems into potential. We offer integrated synchronize manufacturing that include parts design, system building, software development, and maintenance.

## 3. Procurement

We supply customers with optimal electronic parts sourced from around the world. The Company strengths ensure Japanese-level quality from production factories in Thailand. Our Group contacts power our advanced information network and component procurement system so that we can deliver the best solution for each customer

## 4. Production

Our production lines deliver products with high quality and added value. Our global network of factories provides the flexibility to produce in volume or in high mix, low-volume production. We also our strengths as an industry-leading trading company to provide what our customers request, where they need it, on a just-in-time basis

## 5. Sales

With 37 years of selling to the electronics industry, The Company has developed extensive connections. Our diverse sales channels extend to Automotive maker of the world wide, Office automation maker and Japanese electrical industry maker such as Canon, SONY, Panasonic. And in addition to our sales channels, we set up the relevant sales systems to help market in the best way for each situation

## 6. Repair & After-Sales Service

The Company meets our customers' after-sales needs for electronic equipment like Ink jet Printer. Our service menu includes inspection of products before shipping, maintenance and repair after arrival. Such varied support enables us to offer the ideal service for each customer.

### 3.2.2 Analysis of stakeholders in the business value chain

Stakeholders	Expectation	Response
<b>Customers/ Consumers</b>	Standards, quality and Safety of goods and services	Using interaction, feedback and survey results to improve service Standards
	Raw materials/sources of raw materials	Inspection, selection of raw materials/ sources of raw materials with quality and safety standards.
	Reasonable prices	Applying the results of market research on raw materials and sources of raw materials used to deliver quality products to customers/consumer
	Responsibility to customers/consumers	Conducting customer satisfaction surveys and using the results to review the management of promotional programs and selling prices on a regular basis
	Business operations with transparency and social and environmental responsibility	Responding to service errors and follow up on the results of the solution to reach customer satisfaction  Management under the 3R - Reuse Reduce Recycle concept
<b>Shareholder</b>	Good performance and a good return on investment	Annual General Meeting of Shareholders
	Good Corporate Governance	Reporting the performance to the Stock Exchange of Thailand on a quarterly basis
	Taking into account environmental, social and governance issues in strategic plans and questions	Regular notification of news to shareholders through the Company's website and e-mail
	Good risk management and crisis management	
	Transparency of Business information and timely, accurate disclosure of information	
	Opportunity for shareholders and investors to participate and express their opinions on the Company's business performance	

Stakeholders	Expectation	Response
<b>Employee</b>	Remuneration increased	Wage and salary incremental adjustment including other welfares, the Company has considered by business environmental in the present and future.
	Steady of Career path	The Company has training program for all employees in order to development both knowleged and skills according to the annual training program.
	Occupational Health and Safety	The company has implemented and maintaining the occupational health & safety management system. Conduct the training to provide knowledge and other support activities to improve safety in the organization.
	Employee engagement	The Company has normally arranged the employee relation activities such as monthly meeting between CP&H Committee and top management including the others festival activities.
	Respect for human rights and fair treatment	Conducting job satisfaction and happiness surveys Providing training courses for skill development through online teaching materials Formulating human rights policy and conducting a comprehensive human rights audit and monitoring
<b>Supplier</b>	Fair and equal treatment of business partners	Organizing an annual supplier meeting and build good relationships with partners and listen to comments and suggestions from all partners in order to improve the working process
	Fair and transparent business operation	Determining procurement policy and defining principles and practices of selection of suppliers based on a transparent, unbiased and verifiable selection process
	Code of Conduct, strategic leadership and long-term business partnerships	Communicating business plans with business partners every year to define guidelines for business growth and development of continuous and sustainable supply chain management
	Good operation	Promoting knowledge sharing and joint development
	Anti-corruption	Announcing the anti-corruption policy and Communicating to partners via the Company's website and annual partner meeting, as well as Providing training courses on anti-corruption measures for the Employee
<b>Community and Society</b>	Creating jobs and promoting careers for the community	Involvement with the community through employment, raw material procurement and other community development activities
	Promoting the quality of life and good hygiene for the community	Engaging with government and private organizations for better social and environmental promotion
	Sustainable economic development for the community	Promoting the production potential of SME products to be standardized and competitive
	Promoting and preserving the environment for the community	Participation in a project planned by the government sector and private organization

### 3.3 Management of environmental sustainability

#### 3.3.1 Environmental energy mix

The Company considers the effective and efficient use of energy. Therefore, we have set internal target for efficient energy management which is calculated as the energy intensity by compare with sales and has action to increasing the efficiency of electricity consumption such as the project to increase the efficiency of the cooling system and installing VSD motors, So we achieve the internal target of decreasing total electricity consumption 1.25%. And the Company also considers the environmental impact of greenhouse gas emissions from electricity production process. Therefore, we have the policy to use 100% of electricity from clean energy, so we install solar panels on the rooftop of the third factory and purchase renewable energy credits (REC) to cover the electricity consumption of the Company.

Detail	Unit	2024	2023	2022
Electricity consumption from solar cells	kWh	2,750,814	2,804,941	-
Electricity consumption from renewable energy credit	kWh	41,518,000	42,026,000	-
Total electricity consumption	kWh	44,268,814	44,830,941	46,550,000
Percentage of solar cells electricity	%	6.21	6.25	0
Electricity intensity	kWh/MB	3,271	2,891	2,926
Electricity intensity reduction (Year over year, at least -1%)	%	13.14	-1.22	-1.07
Total electricity costs	Baht	171,856,124	204,311,736	173,895,665
Percentage of clean energy electricity	%	100	100	0

The Company uses oil and fuel in forklifts, business cars, transport trucks, canteen and other equipment to operate organizational activities that we input the fuel use data to calculate greenhouse gas emissions which the Company has a policy and reduce the use of fossil fuels for reduce environmental impact by use other alternative fuels or energy.

Detail	Unit	2024	2023	2022
Diesel	Liters	133,269.90	199,550.92	187,574.37
Gasoline	Liters	13,694.76	27,479.66	72,266.06
LPG	Kilograms	47,490.00	43,545.00	42,513.00

### 3.3.2 Environmental water management

The Company has a water management system in place to ensure efficient water usage, reduce water consumption and loss reduce of water contamination including reuse water within the Company to be part of preventing environmental contamination and maintaining environmental quality of community.

The Company's water consumption is mainly used for utilities and canteen. For the production process is a small amount of consumption. However, to manage water efficiently the Company has set a goals to reduce water usage and operation control of wastewater treatment system, waste water quality test drained outside the plant are required by law and includes the reuse of water in the circulation system as part of reducing the amount of wastewater.

The Company has wastewater management through an efficient treatment system that ensures that the quality of effluent discharged meets the legal standards. The Company's treatment process consists of chemical treatment process and biological treatment process and is also dedicated personnel like the pollution controller to closely supervise the treatment system. In addition, the Company sends water samples for regular analysis by registered analysis laboratory with the Department of Industrial Works and internationally certified ISO/IEC 17025.

*Unit : Percentage*

Detail	2024	2023	2022
Water consumption decrease 1% compare with previous year	2.23	2.61	0.39
Operation control of wastewater treatment system (Barrel, activated sludge) to be efficiently. Operation System is normal 100%	100	100	100
The results of the water quality test drained outside the plant are as required by law (not exceeding the legal standards).	100	100	100
Water reuse in circulation system decrease 1% from total amount of water consumption	2.53	3.44	1.98

The Company has a total water consumption of 273,396 cubic meters and decreased by 6,248 cubic meters from 2023, or 2.23%. As a result of inspection and improvement of pipe system to prevent leaks in accordance with joints, valves, pipes, or equipment damaged and including improve and promote water-use efficiency.

The Company has a total water expense of 4,365,758 baht and decrease by 102,847 baht from 2023, or 2.30%, and 6,913 cubic meters of water reuse in Chiller's drainage water circulation system which installed at METCO2, by 2.53% of the total water consumption.

Detail	Unit	2024	2023	2022
Total amount of water consumption	Cubic Meter	273,396	279,644	287,126
Total cost of water usage	Baht	4,365,758	4,468,605	4,588,017
Total amount of water consumption in Chiller's drainage water circulation system	Cubic Meter	6,913	9,613	5,676

### 3.3.3 Environmental policy and guidelines

The Company conducts its business with environment, into considerations in every process of the business value chain to maintain a balance between business operation and the environment, simultaneously.

The Company has established an environmental policy to demonstrate the commitment to environmental management, implementation completely and in the same direction by focusing on sustainable environmental management e.g., compliance with relevant legal and requirement, protection, and prevention to reduce environmental impacts of the business value chain since acquisition of raw materials, production process, transportation, product usage and ultimate product life cycle management and improving production process to be environmentally friendly including continually reviewing and improving environmental performance efficiency. The Company also has a certified Environmental Management System (ISO14001), which is an internationally accepted standards.

In addition, the Company has encouraged employees to be awareness and participation to environmental activities or projects. Whether, efficient of natural resources usage, energy conservation, preserving biodiversity, maintaining ecosystem and environmental of community to be built green organization culture. As a result of this, the Company has been certified Green Industry Level 4 (Green Culture) since 2016 and Corporate Social Responsibility, Department of Industrial Works (CSR-DIW), Ministry of Industry since 2015 and has been certified for the 9<sup>th</sup> consecutive year.

From 2023, the Company is aware of climate change and global warming including risks from climate change to the Company's business operations. The Company is aware of the need to reduce greenhouse gas emission in its operation. And therefore, in response to government policy and business partners both domestic and international as prioritize reducing greenhouse gas emissions. The Company has established Carbon Footprint of the Organization project and committee to assess the organization's greenhouse gas emissions and set fiscal year 2021 as the base year, with professional as verifiers.

### 3.3.4 Environmental management

#### 1.) Air quality and noise management

The Company has ensured compliance with air emission and ambient noise standards required by law to prevent impact to community. Each year, the Company sets goals and implements air pollution and ambient noise management. The goals and operations are as follows:

- Installation of the air filtration system to prevent the emission during production into the air and such a system can prevent particles or dust, harmful gases and other substances efficiently.
- Inspection and preventive maintenance of equipment or machinery including control of shuttle bus and transport vehicles to prevent dust, air pollution and ambient noise that cause distress and nuisance to community around the factory.
- Inspection of the stacks air and ambient air quality twice a year and ambient noise once a year, thereby minimizing the impact on the environment.

*Unit : Percentage*

Detail	2024	2023	2022
The results of the air quality measurement are as required by law. (not exceeding the legal standards).	100	100	100
Noise measurements are as required by law. (not exceeding the legal standards).	100	100	100

## 2.) Greenhouse gas management

The Company has a policy to reduce greenhouse gas emissions 42% by 2030 comparing from the base year 2020, or equivalent to reducing greenhouse gas emissions 4.7% per year comparing from the base year 2021, which has been implemented the carbon footprint of organization project to calculate the amount of greenhouse gas emissions from the organization's activities and actions to reduce greenhouse gas emissions such as installing solar panels, changing the use of gasoline for forklifts to electric forklifts and purchasing renewable energy to use as replacement.

### Greenhouse gas emission

Greenhouse gas emission	Unit	2024	2023	2022
Direct emission - Scope 1	tonCO2eq	652	655	896
Indirect emission from energy used - Scope 2	tonCO2eq	0	0	23,271
Total GHG emission - Scope 1 and 2	tonCO2eq	652	655	24,167
Result of GHG emission reduction - Scope 1	%	Decrease 34.8%	Decrease 34.5%	Decrease 10.4%
Result of GHG emission reduction - Scope 2	%	Decrease 100%	Decrease 100%	Increase 4.9%
Result of GHG emission reduction - Scope 1 and 2	%	Decrease 97.7%	Decrease 97.2%	Increase 4.2%
Other indirect emission - Scope 3	tonCO2eq	140,524	153,625	-

- Note :**
1. The units of numbers in the table are ton carbon (tonCO2eq)
  2. The values 2023 in the table have been verified by an external verifier in April 2024
  3. The values 2024 in the table have not been verified by an external verifier.
  4. Indirect emission form energy used of Scope 2 in fiscal year 2024 come from using 100% clean energy (from solar cells is 6.2% and renewable energy is 93.8%)
  5. The result of GHG emission reduction of Scope 1 and 2 is compared with the base year 2021.
  6. The result of GHG emission reduction of Scope 3 is compared with the base year 2023.

### 3.3.5 Industrial waste management

The Company recognizes the importance of waste management and conducts waste management practices rigorously to comply with related-waste regulations to reduce impact of environmental contamination and prevent impacts potential to community. The Company adheres to the 3R waste management principles, which are Reduction, Reuse and Recycle of waste following local and international guidelines of waste management and considers the potential utilization of waste and to mitigate environmental impacts from waste disposal. Our corporate target is to pursue the Zero Waste to Landfills for waste generated from production processes along with target reuse/recycle waste 100%, which is not a waste disposal method by incineration without energy recovery or other limitations that were not benefit used according to guidelines defined by Department of Industrial Works.

The Company has monitored and prevented impacts on the community since sorting, storing, transporting and disposing of the process by an external waste processor authorized by the Department of Industrial Works and prepare a waste management report to ensure that waste management accordance with the law. The goals and operations are as follows :

Detail	Unit	2024	2023	2022
Total of waste generated	Kilogram	5,111,185.40	5,438,604.74	6,381,310.93
Total of waste that managed by reused or recycled	Kilogram	5,093,550.40	5,390,284.74	6,273,406.93
	%	99.65	99.11	98.31
Total of waste that managed by <u>not recycled</u> , incinerated or landfill	Kilogram	17,635.00	48,320.00	107,904.00
	%	0.35	0.89	1.69

*Note : Methods of waste is managed by reused or recycled such as use as sorting, fuel substitution, or burn for energy recovery or fuel blending*

### 3.3.6 Industrial waste operating results

In 2024, the amount of non-hazardous waste decreased by 387,592.34 kilograms and the ratio is 7.85% from 2023, and the amount of hazardous waste increased by 60,173.00 kilograms and the ratio is 12.01% from 2023.

*Unit : Kilogram*

Detail	2024	2023	2022
Total of <u>non-hazardous</u> waste	4,550,183.40	4,937,775.74	5,741,938.93
Total amount of <u>hazardous</u> waste	561,002.00	500,829.00	639,372.00

### 3.3.7 Quantity and proportion of industrial waste that is reused (reuse), recycled (recycle)

In 2024, the amount of non-hazardous waste that managed by reused or recycled is 4,547,478.40 kilograms and the ratio is 99.94%, and the amount of hazardous waste that managed by reused or recycled is 546,072.00 kilograms and the ratio is 97.34%.

Detail	Unit	2024	2023	2022
Total of non-hazardous waste that managed by reused or recycled	Kilogram	4,547,478.40	4,910,810.74	5,704,634.93
	%	99.94	99.45	99.35
Total amount of hazardous waste reused or recycled	Kilogram	546,072.00	479,474.00	568,772.00
	%	97.34	95.74	88.96

### 3.3.8 Amount and ratio of waste to landfill

In 2024, the amount of non-hazardous that managed by landfill is 2,705 kilograms and the ratio is 0.06% of total waste, and the amount of hazardous that managed by landfill is 14,930 kilograms and the ratio is 2.66% of total waste.

Detail	Unit	2024	2023	2022
Total of non-hazardous waste that managed by landfill	Kilogram	2,705.00	26,965.00	37,304.00
	%	0.06	0.55	0.65
Total of hazardous waste that managed by landfill	Kilogram	14,930.00	21,355.00	70,600.00
	%	2.66	4.26	11.04

In addition, the Company is aware of the risks and adverse impacts of oil and chemical spills from the business operations which were our materiality topics and preparedness to respond to emergencies that affect society and the environment throughout the value chain, including participation in government activities or projects as part of building good relations between each other. The goals and operations are as follows :

Unit : Times

Detail	2024	2023	2022
Accidents that cause environmental pollution must be zero (oil or chemicals spills outside building)	1	2	3
No external environmental complaints.	0	0	0
No notification from government agencies. (notification is 0)	0	0	0

## 3.4 Social sustainability management

### 3.4.1 Social policy and guidelines

The Company strives to produce good quality products based on its responsibilities for the effects caused by its business operation. The Company emphasizes transparency of business operations, accountability, ethics, human rights' respect, stakeholders' benefits, safety for consumers, and shall consider the effect on the community and environment by observing the laws and other requirements, or relevant international practices, as well as develop and improve the foundation of social responsibility consistently and sustainably.

The following 6 major principles of this policy are determined as the mutual arrangement.

#### 1. Good Corporate Governance

The Company gives priority to good corporate governance, as it is an important mechanism that leads to efficient, transparent, and auditable management systems, which will help build confidence and trust by the shareholders, investors, stakeholders, and all related parties. In addition, it will enhance the Board of Directors' working potential and the audit system to control the business and the managements' performance, as well as prevent dishonest and risky behavior by the management.

#### 2. Human Rights and Labor Practices

The Company gives importance to basic human rights and encourages respect of such rights and liberty without discrimination of nationality, religion, color, age, gender, sexual orientation, race, physical disability, or marital status, as well as allows involvement in political activities. The Company does not allow enforced labor, child labor, and implements preventive measures against brutality, sexual abuse, and physical and mental constraints.

#### 3. Community Involvement and Development

The Company considers the demands of the community and encourages its personnel to be partners with relevant local parties near the business premises to develop education, culture, society, and be involved in improving the quality of life in the community. The Company encourages and supports employees participating voluntarily in the community's activities for the public interest.

#### **4. Customer, Business partner, and Consumer responsibility**

The Company strives to achieve the customers' utmost satisfaction by offering good quality and safe products and services and pays close attention to the importance of handling customers' or consumers' complaints promptly. The Company promotes, educates, and encourages awareness among business partners. The Company expects to receive goods and services in the same way and strives to maintain sustainable relationships with each customer and business partner.

#### **5. Fair Operating Practices**

The Company strives to operate its business fairly and ethically, pays attention to observing the laws and social rules, and expresses its determination against corruption and bribery by means of the internal and external audit system, promotes fair trade competition, respects intellectual property and local wisdom, and involves in politics responsibly.

#### **6. Conforming to Environmental Standards**

The Company has determined an explicit environmental policy and complies accordingly. The Company strives to prevent causing pollution, minimizes the possible impact due to business operations, and implements an environmentally friendly production process. The Company arranges regular energy and environmental conservation activities, to conserve and maintain the ecosystem and environment of the community and has an organizational culture among the employees and operators in the Company that emphasizes green culture and sustainable green networks. The Company is implementing the training program in order to educate employees about the environmental protection, biodiversity conservation and energy conservation, through which it encourages utilizing its resources more efficiently for a sustainable society.

### 3.4.2 Social operating results METCO's CSR Activities

**METCO1 THE METCO BUILD COMMUNITY SMILES PROJECT**  
Build an activity area for people in Koh Juan community.

**METCO2 THE METCO BACK TO SCHOOL PROJECT** Improve the current classroom environment to enhance teaching and learning quality at Wat Sao Thong Nok school.

**METCO3 THE METCO CARING FOR HEALTH PROJECT** Build a fence for canteen to promote health and hygiene care for the students at Wat Bua Roi School.

### 3.4.3 Social operating results METCO's CSR Awards

On December 13<sup>th</sup>, 2024, Muramoto Electron (Thailand) Public Company Limited received CSR-DIW Continuous Awards 2024 for the 9<sup>th</sup> consecutive years from the Department of Industrial Works, the Ministry of Industry, with good corporate governance principles for sustainability and its continued efforts to use the principles of corporate governance to make a contribution to society and the environment in its business practices in accordance with ESG guidelines and UN's sustainable development goals (SDGs). The award ceremony was held at IMPACT Challenger Hall, Muang Thong Thani and presided over by Mr. Akanat Promphan Minister of Industry.

### 3.4.4 METCO's CSR Activities with Government and Community Involvement CSR Activity

#### 1) Water Quality Improvement Project

On November 29<sup>th</sup>, 2023 the company participated in "Water Quality Improvement" project that was hosted by Samut Prakan provincial industrial office with the objective of water quality improvement, water treatment and Ecosystem Restoration. The company have donated a Solar panel powered Nano bubble generator that will increase the dissolved oxygen in water of Sao Thong canal and have installed many greases trap for community to prevent fats, oils and grease entering the canal.

#### 2) Industrial Fair Project

On April 1<sup>st</sup>, 2024, the company and Samut Prakan provincial industrial office held an Industrial Fair to promote local entrepreneurs for selling handmade or local products to employees and total annual selling amount is approximately 750,000 baht. The opening ceremony was presided over by Mr. Nattapol Rangsitpol, Permanent Secretary of Ministry of Industry.

#### 3) Coral Reef Conservation Project

On May 19<sup>th</sup>, 2024, the company organized Coral Reef Conservation Project at Marine Science & Conservation Camp, Sattahip district Chonburi province for Marine ecosystem restoration and biodiversity conservation.

## 4. Management's Discussion and Analysis (MD&A)

The following Management's Discussion and Analysis should be read in conjunction with the consolidated financial statements and notes to financial statements. If not defined otherwise, all financial information presented in this document are in Thai Baht. The Company presents its financial statements in accordance with the Thai Financial Reporting Standards (TFRS), which has been adjusted in accordance with the International Financial Reporting Standards (IFRS). All the financial information discussed herein is for the fiscal year ended September 30<sup>th</sup> and has been prepared on consolidated basis.

### Result of Operations and profitability

Detail	Unit	2024	2023	2022
Total Revenue	Million Baht	15,958.28	18,035.76	18,705.05
Cost of Sales and Total Expenses	Million Baht	15,312.18	17,630.63	17,784.60
Net Profit	Million Baht	295.69	242.68	704.64
Earnings Per Share	Baht	14.15	11.61	33.72
Dividend per share	Baht	8.00*	10.00	18.00

Total Assets	Million Baht	9,032.61	9,201.05	9,837.08
Total Liabilities	Million Baht	2,697.49	2,926.32	3,424.38
Total Shareholder's Equity	Million Baht	6,335.12	6,274.73	6,412.70
Book Value	Baht	303.14	300.25	306.86

**Note :** \* Pending for approval from the 2025 Annual General Shareholders' meeting

The Group earned total revenue in this year amount Baht 15,958.28 million, a decreased of Baht 2,077.48 million, or decreased 11.52% from the prior period. One of the factors for recently decline in customers demand for office automation (printer business) is the spread of digitalization. Most companies and consumers found that they compared paper print and digital, the digital has a more cost-effective. Another factor is the rising cost of printing paper. The high price of paper is causing refrain from purchasing the ink jet printer. As a result, total revenue has decreased from printer business.

The Group earned a gross profit in this year amount 1,218.99 million baht, gross profit decreased 113.89 million baht or decreased 8.5% from prior period which gross profit amount 1,332.88 million baht. But, the net profit has increased amount Baht 53.01 million or increased 21.84% from the prior period.

FY2024, the Company has changed our printer business to be exporter from May 2024 in order to more sustainable development that our company will be direct supplier of the customer. We will additional describe about progress of sustainable development at the end of this analysis report. However, This matter affected us about the cash flow due to the credit term for customer has been extended from 30 days to be 60 days moreover, Thai Baht was fluctuated and appreciated against the USD during June – September 2024. Therefore, the cash and cash equivalents of the Company has dropped in amount of Baht 751 million as of 30 September 2024 and loss on net foreign exchange in amount of Baht 284 million for the year ended 30 September 2024.

**Key financial ratios that reflect the Group's financial position and performance in its core business. Comparative data over the past 3 years**

## CORPORATE GOVERNANCE

### 6. Corporate Governance Policy

The Board of Directors of the Company is diligent in performing their duties. Firstly, accounting to the law, secondly, according to the aims and rules of the Company, and thirdly, to the satisfaction of the shareholders.

The Board is also involved in determining future direction and controlling and supervising the Company so that it is managed efficiently.

The Board ensures that Company's operation is according to prescribed policies and to the principles of good corporate governance set by the Securities and Exchange Commission (SEC). And there is a public relations to all employees about the corporate governance policy through the information system and through the company's website.

Therefore, the Board of Directors has established the Good Corporate Governance Policy that all the Company's Directors, Executives, and employees shall use as the working guidelines. And the policies and guidelines are reviewed annually. The content covers five categories as follows :

1. Rights of shareholders
  2. Equitable treatment of shareholders
  3. Role of stakeholders
  4. Disclosure and transparency
  5. Board responsibilities
- 1) Understand and respect the shareholders' right of ownership, for example, trading or transferring shares, receiving profit share from the Company, receiving sufficient information from the Company, attending the shareholders' meetings to vote appointing and demoting the Directors, appointing the auditors, and any matters affecting the Company, such as allocating dividends, stipulating or revising the Articles of Association and Memorandum of Association, decreasing or increasing the capital, and approving special matters, etc.
  - 2) Treat the shareholders equally and fairly, i.e. give the minority shareholders the chance to nominate the Directors in advance with a reasonable time, give absent shareholders the chance to exercise their right to attend the meetings and vote by proxy holders, and give minority shareholders the chance to propose additional agenda items prior to the shareholders' meetings, etc.
  - 3) Take action to prevent the Directors and Executives from using internal information for the benefit of themselves or others falsely in such a way that shall take advantage of the other shareholders, such as by insider trading, or disclosing internal information to any parties related to the Directors and Executives, which is considered as taking advantage, or that may cause damage to the overall shareholders, etc.
  - 4) Take action to allow the Directors and Executives of the Company to disclose information on their and related parties' interests, so that the Board of Directors can consider any transactions of the Company that may have a conflict of interest and can decide accordingly for the Company's overall benefit. However, the Directors and Executives who have an interest in the Company's transactions shall not be involved in making decisions on such transactions.
  - 5) Take action by considering all groups of stakeholders in compliance with the law or agreements made with the Company, including the shareholders, customer, business partners, business competitors, creditors, community, and society, without being influenced by personal needs, family, relatives, or other parties known personally.
  - 6) Operate the business by emphasizing the importance of credibility and honesty; the Directors and Executives shall perform their tasks and treat the Company and all groups of stakeholders in an honest, transparent, and fair manner.
  - 7) Avoid transactions involving themselves/related juristic persons that may cause a conflict of interest with the Company.

- 8) Take action to provide channels and procedures for all groups of stakeholders to report or submit a complaint regarding illegal actions, correctness of the financial reports, impaired internal control system, or unethical matters, to the Board of Directors, together with a protection mechanism of the whistleblowers' right.
- 9) Take action regarding social responsibility, especially any direct impact on the business by considering the environmental and social factors for sustainable development.
- 10) Take action regarding the disclosure of data and information in a correct and timely manner, so that the stakeholders can obtain the information showing the Company's operating results, financial status, and critical developments, and in accordance with the criteria of the Securities and Exchange Commission (SEC) and the Securities Exchange of Thailand (SET).
- 11) Take action to combat corruption, fraud, intellectual or copyright infringements, and respect the law and human rights.
- 12) Take action to ensure effective internal control systems and compliance procedures.
- 13) The Board of Directors shall control the overall management of the Company to comply with the Good Corporate Governance Policy, namely, Rights of shareholders, equitable treatment of shareholders, Role of stakeholders, Disclosure and transparency, and Board responsibilities.

In addition, the Company has developed the Career Path/Promotion Program which provides compensation to employees beyond short-term financial measures. Through the Career Path/Promotion Program Human Resources Department is responsible for employee development enhancing their knowledge and potential. In the Career Path/Promotion Program the HR Department sets typical career path courses in the Company, continuously assesses individual performance of employees, provides them with a package of training courses and verifies candidates for promotions. Such activities could bring benefit both to individual employee who is ambitious to his/her own development and promotion and the Company which always requires new talents.

## **Human rights**

The Company gives importance to basic human rights and encourages respect of such rights and liberty without discrimination of nationality, religion, color, age, gender, sexual orientation, race, physical disability, or marital status, as well as allows involvement in political activities. The Company does not allow enforced labor, child labor, and implements preventive measures against brutality, sexual abuse, and physical and mental constraints.

## **Human Rights Policy**

The Company has been in mind that "Values employee" as one of the pillars of its management philosophy since its establishment in 1987. In addition, in 2009, the Company established the "Code of Conduct and Business Ethics" in compliance with the RBA standards, disseminated it internally and externally, and continue to operate it as the guideline for our corporate activities in response to the expectations of the international electronics industry.

In 2011, the "United Nations Guiding Principles on Business and Human Rights" were unanimously adopted by the UN Human Rights Committee, and with the formulation of National Action Plans in each country, companies are now required to make a commitment to respect human rights by establishing a framework (human rights due diligence) to assess impacts and risks regarding human rights throughout their own value chains that shall prevent, mitigate, and account for any violations of human rights.

The Company has established the METCO Human Rights Policy with the aim of preventing human rights violations, fulfilling its social responsibility of constructing responsible value chains, and promoting sustainable business operations, and pledges that the Company will communicate widely with stakeholders to realize such goals.

### **1. Commitment to Respect Human Rights**

The Company respects human rights as the fundamental rights that all people are born with, throughout our corporate activities. The Company have established guidelines embodying our human rights policy and reflect them in the Company's internal action plan. The Company regularly review and improve this human rights policy and maintain the flexibility to respond to new issues concerning human rights.

### **2. Scope of the Policy**

All the Company's employees, the employees of our subsidiary and related companies, employees of subcontracting agencies, employees of outsourcing companies and other employees working on the Company's premises or for the Company are subject to this policy. The Company expect all business partners (customers and suppliers) to understand, agree and collaborate with this human rights policy.

### **3. Responsibility and Authority**

The Sustainability Committee, consisting of the President and the Directors in charge, is responsible for supervising the planning, implementation and review related to human rights.

### **4. Compliance with the Laws, Regulations and Code of Conduct**

The Company comply with the human rights related laws based on national laws and the international standards. If there are conflicts between such, the Company shall pursue methods that are implemented in accordance with the international norms related to human rights.

### **5. Identify and Human Rights Impact Assessment**

As a part of our human rights due diligence, the Company identify and assess the impact of our operations, products and services regarding human rights and throughout the supply chain including operations within the Company and the Group, as well as overseas.

### **6. Corrective Action**

If a negative impact due to any corporate activities is identified, the Company shall take preventive or mitigation measures to resolve such impact.

The Human Resources Department is responsible for implementing human rights education and enlightenment.

### **7. Communication**

In order to enhance the effectiveness of our human rights initiatives, the Company organize cross-organizational liaison meetings within the Company covering planning, human resources, labor, procurement, etc. Outside the Company, the Company discuss and consult with our stakeholders including third-party organizations.

### **8. Remedy**

In case of a business activity, product or service causes, contributes to, or is directly linked to a negative impact, the Company will engage in implementing effective remedies.

### 8.1.3 Supervision of subsidiary

Subsidiary is entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiary are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Subsidiary has internal control and its review by the Company's internal Audit then report to the Board of Directors.

### 8.1.4 Monitoring of compliance with the corporate governance policy and guidelines

The Audit Committee had considered the independence of the Internal Audit, its scope of responsibilities and annual audit plan as well as considered the audit report and monitoring the implementation of solutions to significant issues mentioned in the audit report. Giving advice on how to improve and streamline the audit performance. The Audit committee also considered the appropriateness of the budget, the workforce, training and personnel development and the annual performance evaluation of the Internal Audit.

## **8.2 Report on the results of duty performance of the Sub-Committees for the year 2024**

### **8.2.1 Audit Committee Report**

The Audit Committee's report is presented in page 6 - 7

## 8.2.2 Report of the Nomination Committee

Dear Shareholders of Muramoto Electron (Thailand) Public Company Limited

The Nomination Committee was established by the resolution of the Board of Directors. According to its charter, the Committee has the following scope, authority, duty, and responsibility functions.

- 1) To consider and propose the criteria for selecting a director and specifying the qualifications of any person to be nominated for a directorship as well as stipulating the nomination process.
- 2) To review annually the size and competition of the Board of Directors and to recommend any proposed changes.
- 3) To nominate suitable candidates for the Company's directorship and propose them to the Board of Directors in order to seek an approval at Shareholders' Meeting.
- 4) To provide minority shareholders with an opportunity to propose qualified persons for selection as directors, by providing advanced notice to allow sufficient time prior to the Shareholders' Meeting being held and manage such a mechanism accordingly.
- 5) To perform other tasks as designated by the Board of Directors.

The Committee consists of four directors, which three of them are the independent directors. In 2024, the Committee held 2 meetings and attended the meeting as follows:

Name of Committee	Position	Meetings attendance
1. Mr. Wanchai Umpungart	Chairman of the Nomination Committee (Independent Director)	2/2
2. Mr. Nop Rojanavanich	Nomination Committee member (Independent Director)	2/2
3. Mrs. Wongtipa Bunnag	Nomination Committee member (Independent Director)	2/2
4. Mr. Ichiro Nishimura	Nomination Committee member	2/2

Concerning the candidate nomination for new director appointments in the Shareholders' Meeting in 2025, the Company invited shareholders to propose candidates for election to the Board. The policies and procedures to allow shareholders to propose candidates for the election of the Board were posted on the Company's website. However, there was no shareholders proposed candidate to the Committee. Therefore, the Committee reviewed those directors whose term retired by rotation in accordance with the Company's Articles of Association. The Committee has considered that those directors could continue to make further contributions to the Board and the Company.

Mr. Nop Rojanavanich and Mrs. Wongtipa Bunnag as the nomination committee members considered the reappointment of Director for Mr Wanchai Umpungrat and Mr. Ichiro Nishimura who retired by rotation in 2025. After reviewing their profile and performance as a director, they recommended reappointing as a director to Board of Directors.

The nomination committee had recommended a best-qualified person for each sub-committee's chairman and member for FY2025 to Board of Director.

The Committee performed its duties as assigned with prudence and care and adhered to the principle of good corporate governance in a manner deemed sufficient and appropriate for the equitable interest of all stakeholders.

(Mr. Wanchai Umpungart)

Chairman of the Nomination Committee

### 8.2.3 Report of the Corporate Governance Committee

Dear Shareholders of Muramoto Electron (Thailand) Public Company Limited

The Good Corporate Governance Committee has performed its responsibilities in compliance with the Good Corporate Governance Committee Charter approved by the Board of Directors.

In 2024, the Committee held 2 meetings by reviewed the Company's Good Corporate Governance Policy and its related policies to ensure the policies updated and in line with the related checklists of Thai Institute of Directors Association (IOD), the Stock Exchange of Thailand and the Thai Investors Association. The committee attended the meeting as follows:

Name of Committee		Position	Meetings attendance
1. Mr. Yoichi	Muramoto	Chairman of the Good Corporate Governance Committee	2/2
2. Mr. Shinichiro	Yamamoto	Good Corporate Governance Committee member	2/2
3. Mr. Ichiro	Nishimura	Good Corporate Governance Committee member	2/2
4. Mr. Tatsuya	Awazu	Good Corporate Governance Committee member	2/2
5. Mr. Kazunobu	Kawabe	Good Corporate Governance Committee member	2/2
6. Mr. Yusuke	Nakatani	Good Corporate Governance Committee member	2/2
7. Mr. Wanchai	Umpungart	Good Corporate Governance Committee member	2/2
8. Mr. Nop	Rojanavanich	Good Corporate Governance Committee member	2/2
9. Mrs. Wongtipa	Bunnag	Good Corporate Governance Committee member	2/2

Starting from year 2016 the Company has been making continuous improvement of good corporate governance. In 2024, the Company has been reviewed Corporate Governance Report in level of "Very Good" (4 stars).

In addition, the Good Corporate Governance Committee, also recommended the Company to improve anti-corruption measures including modification of the Anti-Corruption Policy wordings, preparation of relevant company regulations/guidelines and implementation of action programs based on the corruption risk assessment conducted by the Risk Management Committee as described in this annual report.

The Good Corporate Governance Committee shall encourage and lead the Company to keep making its best efforts in improving good corporate governance practices further.

(Mr. Yoichi Muramoto)  
Chairman of the Good Corporate Governance Committee

## 8.2.5 Report of Remuneration Committee

Dear Shareholders of Muramoto Electron (Thailand) Public Company Limited

The Remuneration Committee consists of three directors. The Committee's duty is to prepare policy and guidelines to designate appropriate remuneration of the Board of Directors and Chairman to be proposed to the Board of Directors and Annual General shareholders' Meetings for approval.

In 2024, the Committee held 2 meetings by considered and proposed to the Board of Directors the remuneration for Directors by taking into the consideration of the outcomes from the Performance Assessments of the Board of Directors. The committee attended the meeting as follows:

Name of Committee	Position	Meetings attendance
1. Mr. Yoichi Muramoto	Chairman of the Remuneration Committee	2/2
2. Mr. Shinichiro Yamamoto	Remuneration Committee member	2/2
3. Mr. Ichiro Nishimura	Remuneration Committee member	2/2

The Remuneration Committee had recommended FY2025 remuneration of independent directors not changed from FY2024 then reported to the Board of Directors.

The Committee performed its duties as assigned with prudence and care, and adhered to the principle of good governance in a manner deemed sufficient and appropriate for the equitable interest of all stakeholders.

(Mr. Yoichi Muramoto)  
Chairman of the Remuneration Committee

### **Related party transactions (RPTs)**

The Company, its subsidiary and related companies have related-party transactions. The transactions include purchasing or selling of produced goods, raw materials or fixed assets, service, expenses, dividend payments and other transactions that supported normal business activities. The selling and purchasing prices were in line with normal business rates or made with reference to the market price. All related-party transactions in 2024 were disclosed in Note No.4 in the financial statements for the year ended September 30<sup>th</sup>, 2024 and both Board of Directors and the Audit Committee reviewed the transactions to ensure they were justified and appropriate.

### **Related party transaction policy**

The Board of Directors and the Audit Committee consider and give opinions about related-party transactions or transactions possibly causing conflicts of interest between the Company and its subsidiary, related companies and any other related persons by holding principles of prudence, rationality, fairness, consideration of stakeholders' involved interest and disclosure of sufficient information to comply with rules and regulations of the Stock Exchange of Thailand (SET) and the Securities and Exchange Commission (SEC).

### **Related party transaction procedure**

In case of the Company has any related-party transaction with any person or companies who has a conflict of interest with the Company, that transaction has to be consented by the Audit Committee and approved by the Board of Directors. The related-party transaction must comply with the rules and regulations of the Stock Exchange of Thailand (SET) and the Securities and Exchange Commission (SEC) relating to related-party transactions and the acquisition or disposal of assets. Any member of the Board of Directors who has an interest in any related-party transaction shall declare to the Audit Committee and the Board of Directors, and refrain from rendering any opinion or vote. In this regard, to approve the related-party transaction, the Company must comply with the procedure and process, considering the Company's optimal benefits, and treat that related-party transaction on the same basis as an outsider's transaction. If the Company has to perform any related-party transaction in future, the Company must strictly comply with the approval process as mentioned above. If such a related-party transaction is required to be considered and approved by the Audit Committee, it shall be examined and considered independently whether it is needed and appropriate. In case the Audit Committee has no expertise on the mentioned related-party transaction, the Company will appoint an independent expert or its external auditor to assist the Audit Committee in that process to obtain the most effective comment or information so that the Board of Directors, the Audit Committee, or the Shareholders can use it to support their decisions in each case. In addition, the Company will make disclosure of the transaction in the note to the Company's financial statements.

### **Related party transaction control and monitoring**

For regular transaction which mostly consists of transactions between the Company's group companies, the Company's management will set pricing policy to ensure buying and selling price based on market ones or normal trading conditions. In case of the Company has to conduct any irregular transaction, the Company's Executive Director responsible for the administration will manage and control the transaction with the corporation of Company Secretary in order to ensure the implementation of transaction in line with related policies and regulations. The Internal Audit of the Company regularly reviews the related party transactions. In addition, the Audit Committee generally reviews and discusses about the related party transactions with the Company's external auditor in order to help protect conflicts of interest and see if the related-party transactions are adequately and properly disclosed.

The Parent Company, Subsidiary and Related Companies are not registered on overseas Stock Exchange Markets. The relationship between the Parent Company, Subsidiary and Related Companies with the Company is presented in pages 30 - 33.

### **9.2.1 Necessity and rationality the transactions**

At the Audit Committee Meeting of the Company has considered the related party transactions of the Group were necessary and beneficial to be executed to support normal business and conditions in these related party transactions were made on the basis of normal business conditions would execute with contractual parties under the same circumstance and as long as there are no influence persons having potential conflict of interest.

### **9.2.2 Measures or procedures for approving related party transactions**

At the Board of Directors' meeting of the Company, the measure and procedures for the approval of related party transactions between the Company, and its subsidiary, and any party with potential conflict of interest with the Company, the Company and its subsidiary must comply with the Securities and Exchange Act, regulations, notifications and orders of the Capital Market Supervisory Board. The stakeholders will not be able to participate in the approval process. Regarding to the law that requires related party transactions to be approved by the Board of Directors, the Company will arrange for the Audit Committee to attend the meeting to consider and comment on the necessity and reasons of the transaction.

### **9.2.3 Policy and tendency of future related party transactions**

The company will proceed in accordance with the securities and Exchange Act including the regulations, announcements and orders of the Capital Market Supervisory Board and the Stock Exchange of Thailand, including compliance with the disclosure requirements of the related parties transaction of the Company and its subsidiary in accordance with accounting standards prescribed by the Thailand Federation of Accounting professions.

## Non-compliance item and reason

Non-compliance item	Reason for the non-compliance
The Company has not yet prepared an integrated report.	The Company has not yet prepared the sustainability report in form of Integrated Report. However, the Company has prepared a chapter in its 56-1 One report covering its required by the Securities Exchange of Thailand and the Securities and Exchange Commission.
The Company has not offer any multiple channel access corporate informaion except SET and the Company's website.	The Company has not yet prepared a section conducting a briefing for the purpose of investor relations as SET's Opportunity Day.
The Company does not disclose the Executive Director and individual compensation.	As the Company's Executive Directors receives remuneration only based on their status as an employee of the Company and its parent company. As the Executive Directors of the Company, their remuneration is presented to the Shareholder's meeting as zero for approval. Therefore, the Board of Directors has an opinion that the disclosure of Executive as Directors employee is highly sensitive then deemed it not disclosure according to the Good Corporate Governance principles.
The Company does not have a compliance unit.	Although the Company has not yet established an organization called Compliance unit, since 2016, the Company has encouraged relevant departments to improve their performance according to the best practice of Good Corporate Governance. In 2024 the Company had been reviewed Corporate Governance Report in level of "Very Good" (4 Stars). However, the Company is considering set-up Compliance Unit.
The Remuneration Committee entirely consisting of Executive Directors.	The Company's Director remuneration is set only for non-Executive Director because Executive Directors receive their remuneration an employee of the Company. Therefore, the Board of Directors has established the Remuneration Committee consisting of only Executive Directors. The Remuneration Committee is appropriate for considering and proposing the remuneration for Non-Executive Directors including Independent Directors of the Company.
The Nomination Committee has all Independent Directors and one Executive Director.	The Board of Directors has established the Nomination Committee and appointed four Directors as its member consisting of three Independent Directors and one Executive Director. Normally, the Committee consists of some Executive Directors representing the Muramoto Group, the Executive Director of the Committee is expected to take a role in the Committee of coordinating search and selection of candidates from the Muramoto Group.
